

Government Fund Utilization

Detailed Analysis Report

Scheme-level fund release, utilization and beneficiary coverage across 10 states and 5 central ministries, FY 2021-22 to FY 2024-25

Source data: govt_fund_utilization_copy.csv | 1,000 records | Report generated from uploaded dataset

1. Executive Summary

SANCTIONED	RELEASED	UTILIZED	UTILIZATION
Rs 4,000.7 Cr	Rs 2,979.5 Cr	Rs 1,914.7 Cr	64.3%

Across the 1,000 records in the dataset, Rs 400,074 lakh (~Rs 4,000.7 Cr) was sanctioned, of which Rs 297,951 lakh (74.5% of sanctioned) was actually released to implementing agencies. Of the released amount, only Rs 191,468 lakh was utilized — an overall utilization rate of **64.3%**, leaving Rs 106,483 lakh released but unspent.

Beneficiary coverage stands at **59.3%** (1,495,039 of a targeted 2,522,802 beneficiaries reached). **32.1%** of all records (321 of 1000) are flagged as **Delayed** or **Not Started**, representing a material execution risk across the portfolio.

Key findings:

- **Utilization lags release consistently:** every financial year in the dataset shows a gap of 33–38 percentage points between funds released and funds utilized.
- **Gujarat and Uttar Pradesh** have the lowest utilization rates among the 10 states (56.4% and 56.0% respectively), despite Gujarat having the fourth-highest release volume.
- **Rajasthan (71.6%) and West Bengal (69.0%)** post the strongest utilization performance.
- **Samagra Shiksha Abhiyan** (Ministry of Education) has the weakest utilization among all 11 schemes at 57.1%, despite being the third-largest scheme by sanctioned amount.
- The share of Delayed/Not Started records **rose from 27.6% in FY2021-22 to 36.9% in FY2024-25**, suggesting execution risk has been increasing over time rather than improving.
- NGO/Partner Organisation-implemented projects show the best utilization (69.9%) and lowest delay rate (26.8%) among the five implementing-agency types; Gram Panchayat-led projects show the weakest on both counts.

2. Fund Flow by Financial Year

Sanctioned, released and utilized amounts have all grown in absolute terms through FY2023-24 before declining slightly in FY2024-25 (likely reflecting that the most recent year's records are still mid-cycle). The utilization percentage, however, has drifted down slightly year over year — from 66.1% in FY2021-22 to 62.4% in FY2024-25.

Figure 1: Sanctioned vs. released vs. utilized funds by financial year (Rs Crore)

Financial Year	Records	Sanctioned (Rs L)	Released (Rs L)	Utilized (Rs L)	Utilization %
2021-22	156	59,597.5	44,096.1	29,158.7	66.1%
2022-23	263	102,083.0	74,944.6	48,432.2	64.6%
2023-24	307	123,074.5	92,337.8	59,895.3	64.9%
2024-25	274	115,318.9	86,572.9	53,982.2	62.4%

3. State-wise Performance

Utilization rates vary by more than 15 percentage points across the 10 states covered, from 56.0% in Uttar Pradesh to 71.6% in Rajasthan. Notably, high sanctioned-amount states are not necessarily high performers — Gujarat receives the sixth-largest allocation but ranks lowest-but-one on utilization.

Figure 2: Utilization % by state (green $\geq 70\%$, blue 55-70%, red $< 55\%$)

Table 1: State-wise summary, sorted by sanctioned amount

State	Records	Sanctioned (Rs L)	Utilization %	Beneficiary Cov. %
West Bengal	111	47,502.3	69.0%	58.5%
Kerala	105	43,559.0	64.2%	58.2%
Tamil Nadu	106	43,274.7	63.6%	56.4%
Rajasthan	89	41,528.5	71.6%	62.5%
Bihar	97	41,185.4	65.1%	63.6%
Gujarat	114	38,899.6	56.4%	56.3%
Maharashtra	101	38,892.4	63.7%	62.8%
Madhya Pradesh	96	36,504.1	62.6%	56.6%
Karnataka	86	35,080.7	67.6%	62.5%
Uttar Pradesh	95	33,647.2	56.0%	57.0%

4. Ministry-wise Performance

The Ministry of Rural Development receives the largest allocation in the dataset (Rs 1,012.8 Cr sanctioned across 257 records), while the Ministry of Jal Shakti posts the best utilization rate at 67.4%. The Ministry of Agriculture & Farmers Welfare, primarily covering PM Kisan and crop insurance schemes, has the weakest utilization at 61.7%.

Figure 3: Ministry-wise sanctioned vs. utilized funds (Rs Crore)

Ministry / Department	Records	Sanctioned (Rs L)	Utilized (Rs L)	Utilization %
Ministry of Rural Development	257	101,278.4	49,070.3	63.6%
Ministry of Jal Shakti	210	88,235.1	44,153.4	67.4%
Ministry of Health & Family Welfare	186	74,050.6	36,004.3	65.8%
Ministry of Education	178	70,813.4	31,942.4	62.0%
Ministry of Agriculture & Farmers Welfare	169	65,696.3	30,298.0	61.7%

5. Scheme-wise Performance

Figure 4: Sanctioned amount by scheme (Rs Crore)

Scheme	Records	Sanctioned (Rs L)	Utilization %
Jal Jeevan Mission	103	45,344.4	68.0%
Swachh Bharat Mission - Gramin	107	42,890.7	66.9%
National Health Mission	99	39,135.4	61.5%
PM Kisan Samman Nidhi	96	38,013.7	59.7%
Pradhan Mantri Awas Yojana - Gramin	89	37,235.8	66.0%
PM Poshan (Mid-Day Meal Scheme)	98	36,939.0	66.4%
Ayushman Bharat - Pradhan Mantri Jan Arogya Yojana	87	34,915.3	70.8%
Samagra Shiksha Abhiyan	80	33,874.4	57.1%
Mahatma Gandhi National Rural Employment Guarantee Scheme	87	32,736.7	64.9%
Pradhan Mantri Gram Sadak Yojana	81	31,305.9	59.5%
Pradhan Mantri Fasal Bima Yojana	73	27,682.7	64.4%

6. Status Breakdown & Risk Analysis

Figure 5 (left): Overall status mix of all 1,000 records. Figure 6 (right): Most-cited audit remarks among Delayed / Not Started records.

Of 1000 total records, 349 (34.9%) are marked Completed, 330 (33.0%) Ongoing, 213 (21.3%) Delayed, and 108 (10.8%) Not Started.

Delayed/Not-Started share has trended upward across the four financial years in the dataset:

Financial Year	Completed	Ongoing	Delayed	Not Started	% At Risk
2021-22	58	55	28	15	27.6%
2022-23	103	78	52	30	31.2%
2023-24	106	106	59	36	30.9%
2024-25	82	91	74	27	36.9%

7. Fund Source & Implementing Agency Analysis

7.1 By Fund Source

Fund Source	Records	Sanctioned (Rs L)	Utilization %
Central Sector	169	65,696.3	61.7%
Centrally Sponsored (60:40)	728	289,033.2	64.3%
Centrally Sponsored (90:10)	103	45,344.4	68.0%

7.2 By Implementing Agency

NGO/Partner-implemented records show the strongest utilization and lowest risk share; Gram Panchayat-led records show the opposite.

Implementing Agency	Records	Sanctioned (Rs L)	Utilization %	% At Risk
NGO / Partner Organisation	97	40,896.4	69.9%	26.8%
Urban Local Body (ULB)	145	61,480.7	67.3%	33.1%
District Panchayat / Zilla Parishad	249	101,694.2	64.0%	34.9%
State Nodal Agency	184	75,417.9	63.3%	31.5%
Gram Panchayat	325	120,584.7	61.7%	31.4%

8. Beneficiary Coverage Analysis

Against a combined target of 2,522,802 beneficiaries across all records, 1,495,039 were actually covered — a coverage rate of 59.3%. Coverage rates are fairly consistent across states (56-64%), tracking closer together than fund utilization rates do, which suggests physical/beneficiary outreach is somewhat decoupled from financial utilization delays.

Figure 7: Beneficiary target vs. covered, by state

9. Data Quality Notes & Methodology

The following cleaning steps were applied to the raw CSV before analysis:

- District names were trimmed of leading/trailing whitespace and standardized to title case (e.g. 'kozhikode', 'Kozhikode', 'Kozhikode ' were all treated as one district).
- **Fund_Utilized_Lakhs** and **Utilization_Percent** were missing on 60 records; for these, utilization % was recalculated as $\text{Fund_Utilized} \div \text{Fund_Released}$ where both figures existed.
- **Beneficiaries_Covered** was missing on 45 records and **Physical_Achievement_Units** on 25 records; these were left as missing rather than imputed, and are excluded from relevant averages.
- **Audit_Remarks** was blank on 70 records; these are treated as 'not recorded' rather than a specific delay reason.
- All monetary figures in this report are in Indian Rupees, sourced as Lakhs (1 Lakh = 100,000) in the original data; this report also presents equivalent Crore figures (1 Crore = 100 Lakh) for larger totals.
- $\text{Utilization \%} = \text{Fund Utilized} \div \text{Fund Released (not Fund Sanctioned)}$. This reflects how efficiently released funds are spent, separate from the sanction-to-release rate.

10. Key Recommendations

- **Prioritize review of Gram Panchayat and District Panchayat-implemented projects**, which show the highest at-risk shares (34.9% and 31.4% respectively) and below-average utilization — these two agency types together account for over half of all records.
- **Investigate the Gujarat and Uttar Pradesh portfolios specifically**: both combine large sanctioned amounts with the lowest utilization rates in the dataset, representing the largest absolute value of unspent released funds.
- **Review Samagra Shiksha Abhiyan implementation**, the weakest-performing scheme by utilization (57.1%) despite being a top-3 scheme by allocation.
- **Address the rising at-risk trend**: the share of Delayed/Not Started records grew from 27.6% (FY21-22) to 36.9% (FY24-25) — understanding whether this reflects genuinely worsening execution or simply that recent-year records are earlier in their lifecycle should be a priority follow-up.
- **Close out missing audit remarks and utilization certificates**: 70 records have no audit remarks and 90 records cite 'fund utilization certificate pending' as the blocking issue — a focused certificate-clearance drive could unlock reported utilization figures without any new fund release.

End of report. This is a point-in-time analysis of the uploaded dataset (govt_fund_utilization_copy.csv, 1,000 records) and does not incorporate data beyond what was provided.
